Forecast for Tuesday 05 Jul 2022

Weather: Cloudy at first, with associated hill fog and periods of mainly light rain. It will remain rather cloudy during the morning but the cloud will gradually break up to give some afternoon sunshine. Clouding over again later with the odd spot of rain.

Chance of cloud-free hill tops above 800m: 20% at first with low cloud covering hills above 300m. Improving to 70% with patchy low cloud down to 400m by lunchtime. 90% during the afternoon with any cloud likely to be above the summits. Deteriorating from the northwest during the evening.

Low Cloud and visibility: Hill fog likely on hills over 300m at first with generally poor visibility improving to good during the morning with excellent views of distant hills during the afternoon.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Afternoon UV levels will be high in the strong July sunshine, so sun protection is recommended. Also, pollen levels will be very high, with it being peak grass pollen season. Hay fever sufferers are recommended to take precautions

Forecast for Wednesday 06 Jul 2022

Weather: Rather like Tuesday, the early hours of Wednesday will be cloudy, with associated hill fog and drizzle. It may remain rather cloudy for much of the day but there is a chance of some sunny spells in the afternoon.

Maximum wind: North-westerly 20 mph with gusts of 30 mph on the summits in the afternoon.

Chance of cloud-free hill tops above 800m: 30% with low cloud covering hills 300m overnight. Improving to 60% with patchy low cloud down to 500m above sea level by lunchtime.

Low Cloud and visibility: Low cloud covering hills above 300m overnight and at first during the morning. Improving during the morning with hill fog patches above 500 metres by lunchtime

Temperature: **Valleys:** 10c at dawn, rising to 19C in the afternoon.
At 800m: 7C at dawn, rising to 10 C in the afternoon.
Freezing level: Well above summits.
